### Family day in the “Mid-Elbe” vacation region

The peaceful woodlands of the Colbitz-Letzlinger heath, the blue ribbon of the River Elbe with its unique water meadows and the wide, fertile expanses of the Magdeburg Börde area: these are the perfect places to recharge your batteries and they are just waiting to be discovered. The historic city of Magdeburg lies at the heart of the “Mid-Elbe” vacation region. The region is characterized by its variety of architectural styles, which range from Romanesque to the creations of Friedensreich Hundertwasser. It also offers exciting experiences for all the family and an extensive range of sports and leisure activities. Follow the Romanesque Road or cycle along the Elbe on one of Germany’s most popular long-distance cycle paths – the Elbe Cycle Route.

The wide variety of leisure and culture offerings ranges from the Elbauen Park in Magdeburg, the Storchenhof stork observatory and the “Rittergut von Barby” manor house and café in Loburg through to the “Bierer Berg Zoo”.

## MORNING: PÖMMELTE WOODHENGE

South of Magdeburg and on the outskirts of the town of Schönebeck are the remains of a circular ditch structure that is more than 4000 years old and has been reconstructed on its original site. The Pömmelte Woodhenge, which dates back to the late Stone Age, is open to visitors and has plenty of interesting discoveries for both adults and children to make.
