Discovering Magdeburg

The magnificent medieval cathedral of Magdeburg towers over the city of Otto. It is a landmark that can be seen from a long distance away, above the baroque facades, green spaces and colorful roofs of the city. It reminds visitors of the city's 1200-year history. This is the first Gothic cathedral built on German soil. The impressive structure is a memorial to Emperor Otto I, whose remains are interred inside. The other famous Otto in Magdeburg, Otto von Guericke, is remembered in the name of the city's university.

The cathedral is surrounded by historic and modern buildings and by the River Elbe which can be heard flowing past. Culture, art and history are closely interwoven in the city. Examples of this include the Art Museum Monastery of Our Lady, the Green Citadel of the architect Friedensreich Hundertwasser, the fortifications of Ravelin 2 and the remains of the historic city walls in the center.

Children are sure to enjoy a visit to the Elbauen Park and the Millennium Tower, the Zoo, the many playgrounds throughout the city and the Cathedral Square with its impressive fountains. Magdeburg is a city with something to offer all the family.
