EXPERIENCE SAXONY-ANHALT

World Heritage Region of Anhalt-Dessau-Wittenberg

Within a radius of only 35 kilometers, you will find three UNESCO World Heritage Sites and one UNESCO Biosphere Reserve: the Luther Memorials in Wittenberg, the Bauhaus, the Masters' Houses and the Houses with Balcony Access in Dessau-Roßlau, the Garden Kingdom of Dessau-Wörlitz and the UNESCO Middle Elbe Biosphere Reserve.

The World Heritage Region also has plenty to offer lovers of water sports. The Rivers Elbe, Saale and Mulde, together with idyllic lakes such as Goitzsche Lake, Muldestau Lake, Gremmin Lake, Gröbern Lake, Bergwitz Lake and Edderitz Lake, all have a variety of water sports activities available, including a modern wakepark and two passenger ships. They are also ideal places to spend a few relaxing hours. The region can also be explored on horseback or in a horse-drawn wagon. Escape from the everyday grind and discover the Anhalt-Dessau-Wittenberg region in the way that best suits you.

One tip for visitors: Explore the region with a "WelterbeCard" (World Heritage card) which offers free entry or other discounts in many visitor attractions.

You can find more information on the website: www.anhalt-dessau-wittenberg.de/en

MORNING: FERROPOLIS

At the FERROPOLIS open-air museum, guests can set off on a journey into the past and the future. FERROPOLIS, the city of iron, was a center of energy and technology. What was once a gray and dreary workplace now offers a range of colorful cultural activities and the opportunity to relax in the countryside. Five huge steel excavators can be seen from far away against the backdrop of the man-made Gremmin Lake. This is a place that children love and they can have a try at being excavator drivers, in the playground. FERROPOLIS is on the Coal | Steam | Light | Lakes adventure route, which offers a variety of activities including multimedia exhibitions, educational nature trails, excursions and water sports on the lakes.

In this unique setting, take the opportunity to relax over lunch in the FERROPOLIS Orangery. Adults and children can recharge their batteries here before setting off on a new adventure.

ADVENTURES?**

AFTERNOON: DESSAU ZOO

The zoo, which is a protected site, is next to the Georgengarten gardens in Dessau. It is home to around 500 animals from roughly 100 different species, together with rare trees and bushes. There are play areas for children and two petting zoos where they can stroke and feed the animals. Children also love the accessible enclosures, where the cranes fly directly past them and they can watch feeding time for the budgerigars.

Dessau Zoo, Querallee 8, 06846 Dessau- Roßlau |

EVENING: DINNER IN DESSAU CITY CENTER

In Dessau city center, not far from the Bauhaus Museum, there are restaurants serving dishes from a range of different cuisines, including Italian, Asian, Greek and German.

One tip for visitors: At the Kornhaus Dessau restaurant, you can enjoy regional specialties and a breathtaking view of the River Elbe. The Kornhaus is located directly on the Elbe Cycle Path. You can obtain more information about evening activities and restaurants from the Tourist Information Center in Dessau.
